# 845 LOCK

## 1 TOP COVER DEVICE

The Top Cover measures 5.0 mm or 2.5 mm in width. It uses two or three needles, top cover "hook" and the chain looper to form a cover hem with loops on both the top and bottom side of the fabric.

## 2 PROGRAM DISPLAY PANEL

Select a stitch and the tensions are automatically set. At the same time, see a condensed version of the instruction manual.

## 3 2-THREAD CONVERTER

Eliminate the upper looper thread for 2 thread rolled hems, flatlocking or stretch wrapped. It's built-in so there's nothing to misplace.

## 4 INSTANT ROLLED HEM

No need to change the plate. Simply flip the lever and you're ready to sew beautiful rolled hems.

## 5 DIFFERENTIAL FEED AND STITCH LENGTH SETTINGS

Easy to set and read dials, conveniently located right on the front of the machine.

## 6 WASTE TRAY

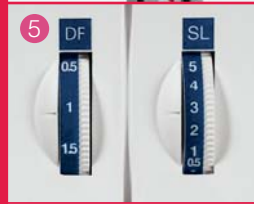

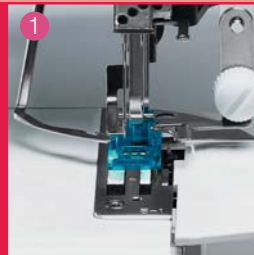

Helps keep your sewing area tidy – it catches those loose scraps and trimmed threads.

## 7 ACCESSORY BOX

The most frequently used accessories/tools are stored in the front cover for easy access.

## 8 5 THREAD

For stable and durable finished seams – the industry standard.

## OVERLOCK FEATURES

- Automatic tensions
- EXCLUSIVE Top cover stitch
- 5-4-3-2 Thread overlock
- Triple, wide and narrow cover hem
- Chain stitch
- Flatlock (2 and 3 thread)
