SPECIALTY SERIES

FM 725

FM 725 Features

Speeds of up to 900 punches per minute	Clear presser foot easily adjusts to accommodate multiple layers
Lint trap keeps lower unit clean and safe	Clear safety guard keeps eyes and hands safe
Five-barbed single needle unit for maximum needle strength	Machine weight 4.6kgs
5 needle and single needle heads	Optional - 5 individual needle unit

Optional Accessories

New large extension table makes handling your projects whatever the size that much easier.

Speeds of up to 900 Punches Per Minute

Speed is variable within 200–900 S.P.M.

Clear Safety Guard

Keeps eyes and hands safe. The adjustable safety guard is transparent so you can see your work as you go.

Optional 5 Needle Unit

Now a 5 needle unit with individual needles so that breakages can be replaced one by one.

Five-Barbed Single Needle Unit for Maximum Needle Strength

Instead of needle and thread, these 5 barbed needles catch the fabric fibres, pushing them through the layers melding the fibres to create the different effects. The needle plate has 5 individual holes which keep the fabric in place and helps the needles to penetrate multi-layers.

Unleash Your Creativity With Our Felting Machine

Felt using fabrics, yarns, natural fibres or your fabric scraps to create scarves, wall hangings, home decor and bags or to embellish quilts or make your own felted fabrics. Felting by machine is fast and controlled. You will master it in no time.
